The Lyons Aviation Foundation
Scholarship Program

INSTRUCTIONS- 2022

The Lyons family has maintained ties to aviation for over 66 years. Through our foundation, the Lyons family is committed to providing opportunities to deserving individuals who wish to pursue a career in aviation as a professional pilot. We seek to encourage the pursuit of aviation for young men and women through our scholarship program.

Application and selection process

Please read the instructions carefully and thoroughly. If you have any question about the application, please consult the FAQs on the website. The scholarship selection committee will select the best applicant based on merit. Applications will be judged solely on merit, to include scholastic achievement, leadership skills, and community involvement. The applicant's ability to convey their passion for pursuing a career in aviation is a significant part of the selection committee's evaluation.

Important!

The recipient must be able to obtain and provide proof of a FAA Third Class medical certificate prior to the start of any training. The recipient of the scholarship must commit to obtaining their private pilot certificate within 6 months of when they start training. All training must occur at a local flight training center approved by the Foundation.

Best of luck!
