Letters of Recommendation

Please attach two (2) letters of recommendation from individuals who can assess your qualities, characteristics, and capabilities of your character. They should have first-hand knowledge of your work habits and achievements, along with an understanding of what your ultimate pursuit is, by applying for this scholarship.

When choosing someone to write your letter of recommendation, select a person who truly knows you and can speak meaningfully about your abilities and character. A teacher or instructor you have worked closely with—someone who understands you both academically and personally—is often an excellent choice. You may also consider a school counselor, employer, coach, mentor, or another adult who is genuinely invested in your success.

The most impactful letters come from individuals who respect you, recognize your strengths, and can provide specific insight into your work ethic, character, and accomplishments. Choose someone who can write with authenticity and enthusiasm, offering detailed examples that highlight your qualifications.

Please do not ask parents or other family members to write your recommendation. We are looking to hear from someone you have impressed, worked for, or studied under.

All recommendation letters must clearly state how long the writer has known you and in what capacity. They should also include specific examples that illustrate your skills, achievements, and personal qualities.

Limit each letter to one page.
